PRESS RELEASE

To Whom It May Concern:

METRO Restoration Cleaning Service, Inc. would like to announce that Mr. Lloyd W. Hyde has just completed a course in Greensburg, PA at IDL Technical Training Center for Advanced Indoor Environmental Quality. This advanced course is on Microbiology, Thermodynamics and IAQ problems for residential or commercial buildings.

We also, would like to mention that he is a Certified Mold Remediator [CMR] and a Certified Indoor Environmentalist [CIE] with the Indoor Air Quality Association [IAQA] through the IAQ Training Institute in Duquesne, PA. These prestigious designations are significant as currently no one else to date has both the CMR and CIE from the IAQA in Allegheny County that is with a restoration and cleaning company.

He is also a member with the Institute of Inspection, cleaning and Restoration Certification [IICRC] of which he is a Master Textile Cleaner, [MTC] that is an advanced designation. Mr. Hyde has been in the restoration and cleaning industry since 1975, over thirty years.

Our company has worked with many of the flood and mold victims in cleaning and treating their homes in the area most recently.

If you have any questions we may be reached at our e-mail address: metro-restoration@choiceonemail.com or 412-835-6560.

Sincerely,

Susan n. Hyde
President

“Servicing the restoration and cleaning industry since 1975”
